Trailforks - Free Android/iOS Interactive Trail Map App

The Andres sculpture park is on the Trailforks application, available for both Android and IOS. Its interactive map shows you where you are on its map as you walk the park and has an icon for each sculpture.

Install the app, download the New Hampshire region, then search for the Andres Institute of Art.

When you click on sculpture icons, a photo of the sculpture comes up with the sculpture name, the artist name, country and the year the sculpture was made.
